The Capital City Business Men had

a most enjoyable time. The business houses were all visited in turn and the Edmontonians were truly surprised at the development which has taken place in Athabasca during the past year and were astonished at the volume of business done each day.

The party, after completing its visit to the farthest north town connected with a railway, return over the line, paying a short visit to Clyde and Morinville. At the former town the mayor and a delegation of citizens is extend-

In Morinville the party will spend an hour this afternoon in looking over the business houses and the industries located there, with special attention to the mines now turning out thousands

Two Edmonton pipers are in the party and those of Scotch descent for miles around flock to meet the delegation. The members of the party are coupling business with pleasure, and are, therefore, entering themselves.

August Wolf, of the Citizen Press Bureau, has been taken in charge by a specially appointed guardian, but made his escape just before daylight this morning, and just as the train was pulling out, dashed madly into the

train and breathlessly announced that he had discovered a mammoth in proof of which he exhibited two bones, which later were found to have belonged to the genus cow.

ULSTER TROUBLE

"Only a Show of Histrionics"

Declares the Lord Provost of Glasgow.

Quebec, Aug. 4.—Emigration and home rule were the most vital ques-

tions of interest to the mind of the lord provost of Glasgow, the Hon. D. Mac-Aulay Stevenson, who was among the passengers arriving on the Scandinavian last night. "I have always been an ardent supporter of home rule," he said, "and I feel sure it will

be of the greatest benefit to Ireland, it does not, of course, directly affect Scotland, but it is a principle of government which is bound to extend. The Canadian federation idea, with a fair measure of autonomy, for all countries in the world, is a very good substitute

In regard to whether he anticipated any trouble according to the threats of the Ulster men, the lord provost said that a witty Irishman had summed it up in speaking to him as being "only

BULGARIA DECLINES CONSIDERATION ANY INDEFINITE CLAIMS

Will Not Enter Into Negotiations Regarding Subject With the Allies.

COUNTER PROPOSALS ARE OFFERED AT CONFERENCE

Preliminary Peace Treaty Cannot be Made in Five Days, and Rumania Suggests Extending the Armistice.

London, Aug. 4.—Bulgaria submitted counter proposals to the demands of the allies at the Bucharest peace conference Saturday, according to a telegraphic dispatch from Bucharest.

Bulgaria's proposals stipulate that the frontier line shall start at the old Bulgarian boundary and run southward through Kumsinovo and Eski-Palanka, thence between Velea and Ispid across the Vardar River to Murchev near Monastir, and then by way of Mosien Grouhine and Kikish to the west of Sores, across the Struma River to the Gulf of Ostania.

Such a frontier would give Bulgaria possession of Kotehama, Ispid, Strumitza, Sores and Kavala.

Bulgaria declined to recognize the allies' claim for an indemnity or to enter into any negotiations concerning that subject.

To Extend Armistice.

Bucharest, Aug. 4.—The Balkan peace conference is making steady progress, but its hardly possible that preliminary peace treaty can be signed by the time the five-days armistice expires this week and therefore, Rumania has proposed a three-days' extension of the compact.

A new frontier between Rumania and Bulgaria as agreed upon, will start 12 kilometers south of Balkan, a port in the Black Sea, run northwesterly to a point 12 kilometers south of Dobrich and finish nine kilometers west of Turtula on the Danube, about 40 miles southeast of Bucharest.

It is understood the allies will abandon their demand for an indemnity from Bulgaria.

The disposition of Kavala in the district of Solouki, on the Aegean Sea, remains the thorniest problem which the peace conference has to deal, and which seems destined to produce another war within a few years, even if it is settled now without further hostilities.

Basis of Agreement.

Bucharest, Aug. 4.—Bulgaria's counter proposal, presented at the Balkan peace conference here, is regarded as constituting her maximum demands, and consequently their abatement to some extent is considered possible.

Peace will be signed, according to the opinion expressed in diplomatic circles, on the basis that points resulting which an agreement cannot be reached shall be reserved for decision by the great powers.

CRIME STILL A MYSTERY.

Whitnapper, Aug. 4.—Stefan Kuchowski, for whom the police have been searching the city since the murder of Mrs. David Feinstein, 529 Margaret avenue, Friday morning, walked into the police station at seven o'clock last evening inquiring for Mrs. Feinstein. Mrs. Feinstein, who is a servant girl, was placed under arrest after proving an alibi. The police are still in the dark as to the perpetrator of the crime.

"OLD KIDIE HARDIE FAITHFUL"

London, Aug. 4.—James Kier Hardie, speaking yesterday at Dundee, said that the time came for him to say aside his business, and he had been told that it might come suddenly, he hoped that those who remained when he passed into the shadow would be able to say that whatever old Kier Hardie was, he remained faithful to the class from which he sprang.

FOREIGN MARINES GUARDING PEOPLE AGAINST CHINESE

International Fleet off Canton Has Been Augmented by More Arrivals.

REFUGEES CROWD ALL TRAINS AND VESSELS

Populace is Fearful of a Mutiny—Soldiers Are Patrolling the Streets as Police Are Unreliable.

Hong Kong, Aug. 4.—The situation in Canton remains serious. The electric lights were cut off last midnight and the people were forced to a mutiny. Trains and junk and other vessels leaving the city are packed with refugees. A soldier of Canton is expected with the arrival of three of General Long Chi Kiung, commander of the government forces in the province of Kwang Si, who is moving southward on the city with his men.

Soldiers are patrolling the streets of Canton, as the police are unreliable. Seventy trained soldiers were shot in that city Friday.

A reward of \$5,000 is offered for the head of the Governor Chang.

Men with guns from British and French warships are guarding the foreign quarter of Canton, where valuable stores worth millions of dollars are stored.

The international fleet, lying off the city has been augmented by the arrival of American, German, Japanese and French men of war.

Soldiers have been sent from Hong Kong to Canton and naval vessels here are ready to leave at a moment's notice with troops and additional supplies.

Missionaries who have been recalled from disaffected districts are arriving in Hong Kong by hundreds. Fifty thousand refugees came into the city last week.

General Lung Chi Kiung is a German trained officer. The Cantonese troops are made up of untrained men. They are demanding double pay for their services.

Ports Bombaraded Again.

Shanghai, Aug. 4.—Following the bombardment of the Wu Tung forts early Saturday morning by government warships commanded by Admiral Tang, the warships returned to the attack for a brief period later in the day with the apparent object of hastening the negotiations for the surrender of the rebels, who are holding the forts.

The northern admirals are undertaking a large sweeping movement, with a view to cornering all the revolutionists in Wu Tung.

As the rebels at Su Chow Fu are retreating to their former position on the Kwa river and toward Pukow.

Ended in Fiasco.

London, Aug. 4.—"The revolt has ended in a fiasco" says the Times-Pokki correspondent. "Further developments ought to result from the introduction of new factors and fresh basis of operation. Dr. Sun Yat Sen says the revolt will be re-organized from the province of Kwang Tung, whither the leaders are reported to have fled, but it is difficult to believe that the leaders who made such a mess of the present affairs, are capable of organizing another movement calculated to endanger the government."

Deserts the Rebels.

Amoy August 4.—The cruiser Hui-shen which has been in the hands of the southerners at Fu Chow has deserted their cause.

HISTORIC RUSSIAN TOWN BURNS.

St. Petersburg, Aug. 4.—The historic town of Nakare, on the Volga, is burning. The flames have reached the famous fourteenth century monastery, where the annual fair, which is now held at Nakare, formerly was held. The town has a population of about 1,500.

VISIT ATATHASCA, PRINCEVILLE AND CLYDE FIRST DAY

(Continued from Page 1.)

The business men are receiving enthusiastic receptions at every point they visit and the trip promises to be the most successful of the three annual excursions. The train consists of three cars besides the dinner, baggage and sleeping cars. The train consists of three cars besides the dinner, baggage and sleeping cars. The train consists of three cars besides the dinner, baggage and sleeping cars.

Superintendent Brown's private car is attached to the train and the superintendent will travel with the company. The party will arrive in Edmonton on Saturday and will leave for the main line on the C.N.R. for They then switch over to the C.P.R. The entire accommodation of the cars at the disposal of the travellers are taxed to the limit and there is no question but what double the number of business men would have taken the trip of the last season had it been possible to complete the arrangements necessary. A special car is to be attached to the train when it leaves for the mountains on Saturday and the entire space in this will also be occupied so it is necessary for those who are planning to go to get their applications in early.

Added from the real business nature of the trip the members of the party are taking advantage of the outing to thoroughly enjoy the holiday offered. Among those who are taking the trip with the firms which they represent are:

ALBERTA GRAINS WILL BE SHOWN

Exhibit from Province Will Be Displayed in Chicago and in Toronto.

One of the finest exhibits of grains and grasses ever sent outside of the province of Alberta is now being collected by J. L. Porle of the Central Alberta Development League. This exhibit will be seen at Toronto, Chicago and many other exhibitions this fall. It will consist of all the most valuable varieties of grain and grasses. One sample of the alfalfa clover, grown on the farm of R. H. Smith, near Edmonton, measures six inches in length. Mr. Porle thinks that such samples as these should demonstrate one and for all that it is quite possible to grow alfalfa successfully in this province, and he should know as he has spent 24 years in this part of the province.

Included in the grain exhibit will be samples of Dawson golden chaff fall wheat giving returns of 62 bushels to the acre; also Alberta red wheat running 50 bushels to the acre. There will also be many samples of record breaking oats both in the sheaf and in bulk. The returns run from 118 to 137 bushels to the acre. Many samples of choice two-rowed barley will also be included in the collection.

The samples will be exhibited first at the Toronto Exhibition opening on August 22nd. A list of other cities will be selected and as many fall exhibitions as possible will be covered.

A POLICY OF RETRENCHMENT WHICH CRIPPLES THE SERVICE.

The superintendent of the power house has reported that if the city is to have an adequate supply of power in the autumn and winter of 1914 arrangements will have to be made at once for the installation of additional machinery. The machinery does not have to be paid for now, but it must be ordered now if it is to be available for service at the time when the electric lighting and the street railway will need it most.

This report, with the recommendation of the commissioners that it be acted upon, has been laid before the city council.

If the waterworks department is to be able to furnish an adequate supply of filtered water in the spring of 1914, an order must be placed at once for more filters.

Payment for these filters does not have to be made now, but next year, when the filters are delivered, and the city is in receipt of an offer from the makers of the class of filters already selected to accept city bonds in case the city finds itself unable to conveniently finance the purchase of the filters otherwise.

The necessity for these filters and the bond offer has been placed fairly before the city council and they have refused to take any action to place the orders for the filters now, a failure upon their part to act which practically guarantees that the citizens will drink muddy water in 1914.

The street railway department has been struggling for years to overcome a deficit which is the result of two causes, first, that there is too much temporary track, costing unreasonably high for maintenance, and second, because capital which was raised on behalf of the street railway, and upon which the street railway is paying interest and sinking fund, has been applied to other purposes, the street railway thereby being robbed of the use of the money upon which it is paying the interest.

When the "committee of four with power to act" compiled its list of curtailments for the present construction season, it included in this list a change from permanent to temporary track on the west end of Nelson avenue and upon Spruce avenue.

By installing temporary track, as the committee of four proposes to do, the street railway is robbed both ways. It continues to pay interest and sinking fund for the capital which should have been invested in permanent track and subsequently to lose the entire cost both of putting it down and of taking it up again, an arrangement which makes it just that much harder for the street railway to get out of the hole and produce a surplus.

The electric lighting department is carrying practically no dead capital at the present time. It is showing a surplus of \$42,000 a month and it has a surplus on hand of over \$150,000. Given a fair show it will abolish nearly 50 per cent. of its debt this year and will cut the price of light and power by nearly 25 per cent.

The city has undertaken a scheme of intensive lighting on the main streets of the city. This system of lighting is to be installed by the lighting department, but charged almost entirely to the property-holders. After all the necessary equipment had been delivered and the conduit work almost completed, nearly three-fourths of the total expenditure having already been made, the curtailment committee decides to cut out the intensive lighting from this year's program.

The effect of this curtailment is that the capital cost for the uncompleted intensive lighting system will rest upon the electric department, instead of upon the property-holders, as it would were the other fourth of the expenditure made and the service inaugurated. The lighting department would thereby be burdened with the interest and sinking fund of a quarter of a million dollars of capital which neither the department nor anyone else was deriving a cent's worth of benefit from, and which at no time was even intended to become a liability against the electric light department in any manner. This burden of dead capital would gouge a very serious hole in the healthy surplus which the electric department has been showing right along and would, in all in power and lighting rays impossible.

Municipal ownership in Edmonton is a very healthy plant, but to survive this policy of retrenchment, which interferes so seriously with the character of the service, it will have to be much more hardy than similar institutions in private hands would be expected to be.

THE FOOLISHNESS OF THE PURBLOISH LORDS

Three important measures in Great Britain are now hung up by the veto of the house of lords, the home rule bill, the Welsh disestablishment bill and the bill to abolish plural voting.

The majority which supports the British government and keeps it in office, is broadly speaking, composed of three parties, the Irish party, the liberal party, and the labor party.

Of these three the Irish nationalists want home rule for Ireland, and have been fighting for half a century. The liberal party, reflecting the opinions and inclinations of Lloyd George, has undertaken as a government measure the disestablishment of the Church of England in Wales. The labor party has always fought for the equal franchise, not only in Great Britain, but in every other country in the world as well. To them the principle of one man one vote is near and dear.

The action of the house of lords in throwing out these bills does not defeat the measures which it rejects. It merely delays them. In accordance with the parliament bill, which the Asquith government passed following the rejection of the now famous Lloyd-George budget, the lords may take a measure by twice vetoing it, but upon this third occasion on which it is passed the lords have nothing to say; it becomes law in spite of them.

So that in rejecting these three measures the lords have given effect to the three wings of the government majority cause to require that the government survive, at least, until the measures rejected have been passed a third time and enacted into law. The earliest that this can occur is, in all probability, at some date subsequent to the next stick together, up until, during and after the next election.

The rattlesnake which, having received a vital blow, coils about and stings itself has very little on these purblish lords. Having been divested by the Asquith government of the power to strike, they now make their own extinction virtually certain by guaranteeing the return of the Asquith government.

DELAY ON THE HIGH LEVEL SHOULD BE REFERRED TO THE RAILWAY COMMISSION

Although the high level bridge has been completed for train service for several weeks and the C. P. R. is making daily use of it for the transfer across the Saskatchewan of all its passenger trains, the company, because it has not suited the convenience of its construction department to do so, has not yet completed the street railway section of the bridge and makes no move which promises completion inside of the next two months. In fact, the company seems to be going out of its way to be disobliging, as a half-hourly service on one track could be commenced at almost any time if the company would remove a pile of gravel which has been set down on the right of way of the street railway.

So far as the pedestrian and vehicular sections of the bridge are concerned, there is not even a promise of when they will be opened to traffic. In the handling of this matter the Canadian Pacific is following the arrogant, inconsiderate and regardless tactics which are the greatest factors in creating that feeling of resentment which always exists in the public mind against the corporations and corporation methods.

In this particular instance, the action of the corporation is particularly reprehensible, as the bridge is not the sole property of the Canadian Pacific, but is being built jointly by the city and the railway company, the city having paid its share for the construction of the traffic deck, and the company having undertaken, as agent for the city, to see that the citizens get, without any undue delay, the use of that section for which they are paying good money over to the C. P. R. to spend for the city as the city's agent. When the C. P. R. shows itself so unkind of the interests of the people of the second part, which is the city of Edmonton, it is time for the people of the second part to call in some competent authority to compel the company to live up to the spirit of its obligations. The railway commission is the competent authority. An appeal should be made to the railway commission to compel the company to live up to its share of the partnership agreement by completing the city's section of the bridge with quick and such expedition as it is applying to its own section.

THE YELLOW PERIL SWAMPS THE COURT

Fan Tan Devotees Told to Come Back Thursday and See What Happens—Police Not Optimistic.

One in every five years there comes up a case of the yellow peril for the higher education, and there must be such a case in the city at the present time. The case is Halsbury's Laws of England, a recent work much prized by the legal fraternity. He reports that three sections of his book, containing the Halsbury and several other books, is missing, and that some one walked away with them from his office at the law library. The books were not there when he returned, and he has no knowledge as to their whereabouts.

The Halsbury, the Wals, the Tongs and Longs, the Poo and the Wos, constituted the main part of the audience at the morning session of the court. The occasion was one of great importance, for many of the China boys appeared in the court. A recent work much prized by the legal fraternity, a frequenter of gambling houses, was removed from the library. After Sam Smith had been removed, the court was adjourned. First Reservation is Made for Province for the Land and Apple Show.

While in Winnipeg, Industrial Commissioner Hall made provision for the first reservation of the Edmonton booth in the industrial building in that city. Some new pictures were placed, including a fine panoramic view of Edmonton right up to the minute. The figures indicating the wonderful growth of the city in its many departments were also revised and corrected where necessary.

Mr. Hall also attended a meeting of the organization committee of the land and apple show to be held in Winnipeg from October 10 to 15. The first reservation for space on behalf of Edmonton was made by Mr. Hall, and is therefore the choicest part of the convention. The show will be held in the industrial building, where the show will be held. This exhibition promises to be one of the best held in Canada this year. There will be exhibits from every province in Canada as well as from many of the United States.

The list of prizes and full information will soon be ready for distribution. As an indication of the value of the prizes offered at this show, mention might be made of the first prize for the best exhibit of vegetables will be a fine gold watch, which is a very valuable prize. The best collection of vegetables will be awarded a prize of \$50. There will be various other prizes and other products.

The commissioners recently appointed by the provincial government to represent Alberta at this land and apple show, are Mr. Daley, secretary of the public relations department, Mr. Miller, of Calgary, A. G. Peom, president of the Alberta Farmers' Union, and George M. Hall, industrial commissioner for Edmonton.

Mr. Hall stated that it was well organized and a very valuable line of work was being done in the province of Alberta. The splendid officers of the public relations department in the industrial building, where an excellent line of advertising matter is handled.

Mr. Hall and his assistants are as diligent and attentive as they possibly could be to the public, and an almost endless amount of valuable advice is being handed out to the many who daily apply at the office, said Mr. Hall.

Industrial Commissioner Hall Tells of Benefit of Real Estate Convention

Industrial Commissioner George M. Hall returned last night from the real estate convention in Winnipeg last week. After the convention was over Mr. Hall attended to some other very important hours of business in connection with his department.

In speaking of the convention he stated that a fine delegation of real estate men were present from Edmonton. Alderman Tipton, he believed, made the most effective five-minute address in the competition for the cup and he could not just say why the delegates from the city were so successful. Partial contents of Webster's New Illustrated Dictionary

Based upon Noah Webster's Dictionary, revised and brought UP TO DATE in accordance with the most eminent English and American authorities on spelling, pronunciation and definition, and especially designed to meet the popular demand for a CONVENIENT, complete and RELIABLE Dictionary.

It contains all the words of the English language that are not peculiarly appropriate to a Dictionary of technical terms; it gives the spelling and pronunciation of Plurals, and indicates the use of capital and small letters in writing every word in the vocabulary; it gives the Past Tense and the Particles of all verbs not regularly formed by the addition of -d, -ed, and -ing; the Pronunciation of each word is plainly indicated by phonetic spelling; the Definitions, comprehensive, yet concise, are accurate and reliable.

Preceding the Dictionary proper will be found a treatise on ABBREVIATIONS of the Parts of Speech and their grammatical signification. Also a discourse on the Origin, Composition and Derivation of the English Language.

The ANALYSIS of the "Principles of Grammar" will fill a long-felt want in promoting the correctness of speech, both spoken and written.

Under the head of "SIMPLIFIED SPELLING" will be found the rules as adopted by the SIMPLIFIED SPELLING BOARD, and giving a complete list of 300 words spelled in two ways, of which the Board says, "Choose the simpler spelling."

Finally is given a complete KEY TO PRONUNCIATION.

Surprising results are obtained in looking up the Spelling, Pronunciation and Definition of the

NEW WORDS

which have been incorporated into our language only yesterday, as it were. For instance: Aviator, Bi-plane, Brainstorm, Cordite, Okapi, Carburettor, Dictograph, Hookworm, Krypton, Lettergram, Nickelodeon, Oslerize, Stovaine, Taxicab, Zemule, Hangar, Equilibrator, etc.
